

January 14, 1964

Mr. A. J. Fitch
Manager
The Anaconda Company
Box 638
Grants, New Mexico

Dear Mr. Fitch:

We have today recommended to the Superintendent of the United Pueblos Agency that he approve the relinquishment by The Anaconda Company of the prospecting permit dated October 18, 1951, covering lands on the Laguna Pueblo.

However, to complete our records it will be necessary for us to have some information on the exploratory drilling on the relinquished lands. I believe that you have maps showing the hole locations and radiometric information plotted.

In the near future myself or someone from this office will be in the Grants area to discuss with you what information is necessary. At that time we may find that one of your exploration maps will serve our purpose.

Sincerely yours,

James W. Hager
Mining Engineer
